ACCSA GLOBAL INTERNATIONAL ACADEMIC CONFERENCE 2026 (2nd EDITION)

CALL FOR PAPERS & ABSTRACT SUBMISSION

Conference Theme

Emerging Technologies as Enablers of National Economic Modernization: Strategic Architectures for Sustainable Growth and Global Competitiveness

 **Conference Date:** Saturday, August 29, 2026

 **Time:** 10:00 AM (US Central Time)

 **Mode:** Virtual Conference (Zoom)

ABOUT THE CONFERENCE

The **2nd ACCSA Global International Conference** brings together distinguished scholars, researchers, policymakers, industry leaders, technology innovators, and professionals from around the world to explore how emerging technologies are reshaping economies, transforming industries, and driving sustainable national development.

This conference provides a global platform for the presentation of innovative research, practical solutions, policy frameworks, and transformative ideas that harness Artificial Intelligence, digital technologies, intelligent systems, and innovation to accelerate economic modernization and strengthen long-term global competitiveness.

Researchers and practitioners are invited to submit original abstracts that contribute to advancing knowledge, policy, and practice in this rapidly evolving field.

CONFERENCE SUB-THEMES

Papers are invited in, but not limited to, the following areas:

- Artificial Intelligence and Intelligent Economic Systems
- Industrial Transformation and Smart Manufacturing
- Digital Government and Public Sector Innovation

- National Economic Modernization and Policy Innovation
- Critical Infrastructure Resilience and Smart Cities
- Cybersecurity and National Security in the Digital Economy
- Data Analytics, Big Data and Intelligent Decision-Making
- Fiscal Modernization and Digital Public Financial Management
- Financial Technology (FinTech) and Digital Finance
- Innovation, Entrepreneurship and Emerging Technologies
- Supply Chain Digitalization and Global Trade Competitiveness
- Workforce Transformation, Digital Skills and Future of Work
- Sustainable Development, Green Technologies and Climate Innovation
- Strategic Leadership and Institutional Transformation
- Accounting, Auditing and Governance in the Age of Artificial Intelligence
- Emerging Technologies in Education, Healthcare, Agriculture and Public Administration
